PRODUCT GUIDE 2024

vitex.gr/en

vitex

- The leading Greek-owned architectural paints company.

- With the most advanced paint factory in Southeastern Europe. Certified and awarded for its high level operational and safety standards.

- With sales to over 20 countries around the globe.

ECO - EPD

Environmental Product Declaration

The ECO-EPD is an Environmental Product Declaration verified by an independent competent body and contributes to the formation of a complete responsible brand providing reliable and methodologically tested information for the evaluation of environmental impact. In accordance with international standards EN 15804 & ISO 14025 the ECO-EPD offers information for the environmental impact across their life cycle.

Vitex Care / Vitex Care Eggshell
Best -In- Class-overall performance mat or egg-shell emulsion wall paint. Top Care protection for surfaces, people and environment, with EPD (Environmental Product Declaration).

HyRoof Hybrid PU
Hybrid elastomeric waterproofing roof coating, certified for over 10 years of protection ✹

EXTERNAL THERMAL INSULATION AND ANTI-CRACK PROTECTION SYSTEM

Certified external Insulation Composite System that improves building's energy classification and reduces its maintenance cost.
3 in 1 solution: Thermal insulation - Plaster that can be colored - Unlimited number of color shades ✹

VITEXTHERM

Vitex with Vairo
Antiviral and antibacterial eggshell emulsion wall paint for interior use.

Vitex Classic
Premium quality emulsion paint for interior use, with superior spreading rate and hiding power.

Delac
Transparent acrylic stone varnish. It enhances the natural color of the surface and protects the stone from humidity and stain absorption.

Grip 360
Mat, waterborne multi-bonding primer. It offers great adhesion and anchorage on difficult absorbent and non-absorbent surfaces.
Heavy Metal Silicon Varnish
Solvent based silicon anticorrosive tough varnish. It offers excellent protection, maintaining the rusty effect image.

WATERPROOFING SOLUTIONS

Integrated waterproofing solutions
from foundations to roof! ☀

⬡ HERMES ®

Acrylan Max
Ultra Durable Nano-Acrylic Paint.

Aquavit PU Eco
Ecological PU acrylic water based enamel
paint for interior and exterior use.

Heavy Metal Silicon
Solvent based silicon
alkyd tough enamel
with excellent durability.
Can be colored in
thousands of shades.

Diaxyl Plus
Protective and decorative
polyurethane water-based
penetration varnish for
interior and exterior wooden
surfaces.

Pool Paint
Two Component Solvent-
based Epoxy Paint For Pools

SPECIALISATION IN COLOR

Our specialized Chromatography department and our Chief Colorist closely collaborate with international color associations such as **Color Guild** and **NCS** that monitor and predict **international trends**. Our fandecks and color cards are developed in accordance with the most **advanced conformity and precision standards.**
The unique **Vitex Coloring System** with **24 colorants** provides special characteristics in terms of shade durability and accuracy that perfectly match with our fandecks and color cards and ensure repeatability.

Vitex Global Collection
Inspired by modern international color trends in decoration, in strategic partnership with the Color Guild Association.

Vitex NCS Collection
In collaboration with the Swedish NCS Institute.

AUTHORIZED
NCS NETWORK
MEMBER

Acrylan Global Exterior
The 160 most popular exterior paint colors in Greece and internationally. Enhanced with HD (High Durability) pigments specially designed for outdoor use.

Vitex Colorfull Collection
Inspired by Greece.

Color Card Vitex Global Pocket
With specially selected shades from Vitex Global Collection.

Color Card Diaxyl Plus / Lussolac
Shades to protect and beauty wood

TRENDS Magazine
International trends shades of the year by Color Guild Colorists.
Color Card Heavy Metal Silicon and Heavy Metal Silicon Effect
Shades with gloss, satin, metallic and textured finish for metal surfaces.

Color Card Vitex Metallico
Shades for a modern and impressive metallic finish.

Color Card - Emulsion and Cement paints
Basic shades for interior and exterior use.

The new decoration guide of Vitex in exclusive collaboration with the International Color Guild Organization:

- **INSPIRES** you with trends and ideas for the renewal of your space
- **TRAINS** you for the best color combinations
- **PROTECTS** you with state-of-the-art product proposals
- **ENCOURAGES** you with quick and easy styles

HyRoof Hybrid PU

Hybrid elastomeric waterproofing roof coating, certified for over 10 years of protection

✔ Provides excellent protection, allowing moisture to escape
✔ 93% reflectivity for reduced cooling costs
✔ 300% elasticity for seamless covering of cracks and defects
✔ Easy and odorless application to all substrates
✔ Certified cool paint

Shades	Packaging
White	750mL, 3L, 10L, 16L

1 m²/L   2-3 h

HyRoof Hybrid PU Primer

Hybrid water-based polyurethane primer

✔ Penetrates, waterproofs and stabilizes surfaces
✔ Strong adhesion to concrete, asphalt membranes, cement tiles, acrylic paints, etc.
✔ Ideal for priming before the application of HyRoof Hybrid PU

Shades	Packaging
Semi transparent	5L, 15L

10-12 m²/L   45'

HyRoof Reinforced Polyester Tape

Polyester tape 50 gr/m² for reinforcement in corners, parapets, joints, cracks and gutters.

Roll
10 cm x 100 m
30 cm x 100 m

HyRoof Reinforced Polyester Mesh

Reinforced polyester mesh 50 gr/m². Easy immersion and compatibility to substrates. It improves HyRoof insulation system performance.

Roll
1 m x 100 m

Vitacryl Roof Insulation Paint

Elastomeric Roof Coating

- Great adhesion to all substrates
- High elasticity
- Contributes to energy saving
- Certified cool paint

Shades	Packaging
White & Brownish red	750mL, 3L, 10L

0-10%   3 m²/L   2-3 h

Vito Roof Insulation Paint

Acrylic based roof insulation paint

- Economical and reliable solution for waterproofing
- Good adhesion to all substrates
- Contributes to energy saving
- Certified cool paint

Shades	Packaging
White	3L, 9L

Diaxyl Plus

Polyurethane penetration varnish water and solvent-based

- ✔ Protective and decorative varnish for exterior and interior wooden surfaces
- ✔ With polyurethane and UV filters for excellent durability and resistance to adverse weather conditions and UV radiation
- ✔ Allows wood to "breathe"

Shades	Packaging
Colorless and 11 ready-made shades (solvent based)	750mL, 2,5L
30 shades (water based) through Vitex Coloring System	750mL, 2,250L

Ready to use   12-16 m²/L   2-3 h

Diaxyl Extra

Wood Preservative for exterior surfaces

- ✔ Effective protection against insects and fungi
- ✔ High penetration depth

Shades	Packaging
Colorless	750mL, 2,5L

Ready to use   10 m²/L   1-2 h

Lussolac Solvent-based

Solvent-based PU Wood Varnish

- ✔ Great elasticity and hardness for exterior and interior use
- ✔ Enriched with polyurethane and UV filters for optimum durability and resistance to weathering and sunlight

Shades	Packaging
Colorless Gloss, Satin & Mat	180mL , 750mL, 2,5L
11 ready-made shades, Gloss	180mL , 750mL

3% T300/T350   **12-16 m²/L**   **3-4 h**

Lussolac Water-based

Water-based PU Wood Varnish

- ✔ Great elasticity and hardness for exterior and interior use
- ✔ Enriched with polyurethane and UV filters for optimum durability and resistance to weathering and sunlight
- ✔ With certified suitability for children's toys

Shades	Packaging
Colorless Gloss, Satin & Mat	750mL, 2,5L
30 shades (Gloss) through Vitex Coloring System	750mL, 2,250L

0-10%   **12-14 m²/L**   **1-2 h**

Teak Oil

Wood Penetration Oil

- ✔ Penetration oil from mixture of modified natural oils enriched with wax
- ✔ Refreshes, preserves and protects the wood from intense sunlight and moisture
Shades	Packaging
Colorless	750mL

No dilution   **12-16 m²/L**   **2-3 h**

Decking Oil

Penetrating Oil For Exterior Wooden Decks

✔ For waterproofing and protection of wooden decks

✔ High resistance to chemicals and adverse weather conditions

Shades	Packaging
Colorless	2,5L, 5L

No dilution 12-16 m²/L 2-3 h

Marelac Solvent-based

Ultra Durable PU Wood Varnish Solvent-based

- ✓ Ideal for boats, yachts, ships, as well as doors, window frames and wooden furniture with seaside exposure
- ✓ High gloss protective film for maximum protection against weathering and sun with UV filters and HALS light stabilizers

Shades	Packaging
Colorless Gloss	750mL, 2,5L

5%
T300/T350 | 14-16 m²/L | 3-4 h

Marelac Water-based

Water-based Ultra Durable PU Wood Varnish

- ✓ High gloss protective film for maximum protection against weathering and sun with UV filters and HALS light stabilizers
- ✓ Water repellent ideal for wooden surfaces exposed to adverse weather conditions

Shades	Packaging
Colorless Gloss	750mL, 2,5L

0-10% | 10-12 m²/L | 1-2 h

Delac

Stone varnish

- ✓ Stone penetration varnish for exterior and interior use
- ✓ Enhances the natural surface coloring and protects from humidity and stain absorption

Shades	Packaging
Colorless	750mL, 2,5L

No dilution | 10-12 m²/L | 1-2 h

Wooden Floor Varnish

Polyurethane varnish for wooden floors

- ✔ Polyurethane varnish for high hardness and great resistance to abrasion, engraving and cleaning products
- ✔ Easy application on interior parquet, wooden floors and stairs from old and new wood

Shades	Packaging
Colorless, Gloss & Satin	1L, 2,5L

5% | 10-12 m²/L | 1-2 h

Wooden Floor Primer

Water based one component transparent primer for wooden floors

- ✔ One component transparent primer for preparation and filling of wooden surfaces before the application of the top coat
- ✔ Easy application on interior parquet, wooden floors and stairs from old and new wood

Shades	Packaging
Colorless	1L, 2,5L

5% | 8-10 m²/L | 1-2 h

Acrylan Unco Eco

Ecological Silicone Acrylic Water-based Primer

- ✔ IAC GOLD & A+ Indoor Air Quality
- ✔ Maximum penetration into weak and porous surfaces
- ✔ Ideal for all exterior and interior surfaces
- ✔ Certified ecological and slightly colored

Shades	Packaging
Semi transparent	1L, 5L, 15L

0-100% depending on substrate's absorbency — **14-18 m²/L** — **45'**

Durovit

Waterproofing Acrylic Primer Solvent-Based

- ✔ For waterproofing and stabilization of all surfaces before the application of top coats
- ✔ Great resistance to moisture, allows surfaces to breathe

Shades	Packaging
Transparent	1L, 5L, 15L

30-100% T300 — **14-16 m²/L** — **60'**

Primer - 100% Acrylic

Waterproofing Acrylic Primer Water-Based

- ✔ Great adhesion on surfaces
- ✔ High spreading rate and user friendly application
- ✔ Dilution 3-4 parts water - 1 part primer

Shades	Packaging
Semi transparent	750mL, 3L, 10L

300-400% — **18-20 m²/L** — **15-30'**

Gypsum Board Primer

High Quality White Gypsum-Board Primer

- ✔ Exceptional filling properties, fully equalizes absorbency differences between construction materials
- ✔ Perfect one-coat finish for interior use only

Shades	Packaging
White	3L, 10L

5-15% — **12-14 m²/L** — **30-60'**

Grip 360 Primer

Water-based Multi-bond Primer

- ✔ Great adhesion and anchorage on difficult absorbent and non-absorbent surfaces
- ✔ Isolates and covers surfaces with old stains
- ✔ Can be colored improving the coverage of the final top coat
- ✔ For interior and exterior use

Shades	Packaging
White and thousands of shades through Vitex Coloring System	750mL, 2,5L

Thousands of shades

5-15%   **12-15 m²/L**   **30-60'**

PreColor

White Acrylic Water-based Primer that can be colored

- ✔ Enhances hiding power, reducing the number of top coat layers
- ✔ Improves the appearance, adhesion and durability of the top coat
- ✔ Can be colored for all top coats
- ✔ For exterior and interior use

Shades	Packaging
For final shades on transparent base, coloring is possible in 3 specific shades (yellow, red and grey) depending on the final shade. For final shades on white and medium base, coloring is possible according to the top coat.	750mL, 3L, 10L

Thousands of shades

0-10%   **10-12 m²/L**   **30-60'**

Blanco Eco

White Ecological Acrylic Water-Based Primer

- ✔ High hiding power for stains (smoke, nicotine, yellowing, etc.) on exterior and interior surfaces
- ✔ Excellent as intermediate coat from dark to lighter shades
- ✔ For use before application of water-based paints

Shades	Packaging
White	750mL, 3L, 10L

5-15%   **11-13 m²/L**   **30-60'**

Vitosin

Insulating solvent-based primer

- ✔ Perfect insulation for exterior and interior surfaces
- ✔ Ideal for coverage of surfaces stained with smoke, nicotine, mold, smog and other pollutants
- ✔ Exceptional resistance to water vapour and mold

Shades	Packaging
White	750mL, 2,5L, 10L

30-100% T300   **8-10 m²/L**   **60'**

Velatura Eco

Ecological Primer For Water-Based Enamel Paints

- IAC GOLD & A+ Indoor Air Quality
- Excellent adhesion to wood, glass, hard PVC, aluminum and metal surfaces
- For interior and exterior use
- Covers and fills providing a perfect final finish

Shades	Packaging
White	750mL, 2,5L

5-15%   11-14 m²/L   30-60'

Velatura

Alkyd-Based Primer For Enamel Paints

- Ideal for exterior and interior wooden surfaces
- Excellent hiding power and levelling properties
- Excellent brushability
- Recoatable with water or solvent based enamel paints

Shades	Packaging

Acrylic Repair Putty

- ✔ For exterior and interior surfaces of plaster, concrete and wood
- ✔ Excellent resistance to moisture and alkalinity

Shades	Packaging
White	400g, 800g, 5kg

2-3m²/kg   30'

Elastomeric Putty

Elastomeric putty

- ✔ For cracks up to 1 cm in exterior and interior surfaces of concrete, brick, plaster, cement, wood, plasterboard
- ✔ Does not crack

Shades	Packaging
Grey	400g, 800g, 4kg

1,5-2,5 m²/kg   3-6 h

Light Acrylic Putty

Light acrylic putty

- ✔ For large cracks and holes on interior walls, plasterboards and roofs
- ✔ Does not shrink and dries fast

Shades	Packaging
White	750mL

CE
EN 13963

5-15'

CE

EN 15651-1

🕐 7'

Silacryl Putty

Paintable acrylic tile grout

- ✔ For filling exterior & interior joints, seams, fissures and cracks
- ✔ Applied without primer

Shades	Packaging
White	280mL

CE

EN 15651-1,
EN 15651-2,
EN 15651-3

🕐

Silomer 100 - Silicone

Sanitary silicone

- ✔ For jointing and waterproofing of window panes, aluminum, tiles and bathtubs
- ✔ Excellent resistance to humidity and water

Shades	Packaging
Transparent & White	280mL

Superbond Primer

Quartz primer

- ✔ Ideal for smooth and non-absorbent surfaces
- ✔ Provides ideal adhesion conditions for the application of pressed cement screed, thermal insulation slabs, plaster, putty, tile grout etc. on exterior and interior surfaces
- ✔ Perfect adhesion on cement, tiles, metallic surfaces, plaster etc.
- ✔ Ready-to-use

Shades	Packaging
Brownish red	750mL, 3L, 10L

0-5%   8-12 m²/L   2-3 h

Pool Paint

2-component epoxy pool paint

✔ Ideal for swimming pools

✔ Excellent resistance to water, chlorine and pool chemicals

✔ Excellent adhesion and long lasting protection

Shades	Packaging
White, Light Blue (Gloss)	3.5L

5% Epoxy Thinner　　**8-10 m²/L**　　**1-2 h**

Epoxy Thinner

✔ Thinner for epoxy pool paint and all other epoxy paints

Packaging
750mL

Road Marking Paint

Acrylic road marking paint

✔ Ideal for marking roads, parkings and fields

✔ Fast drying and high reflectance

✔ Excellent resistance to weathering

Shades	Packaging
White, Yellow	750mL, 2,5L, 25kg

5-10% T350 / T400　　**1-4 m²/L**　　**10-20'**

Silver

Aluminum paint for temperatures up to 200°C

✔ Suitable for exhausts, fireplaces, chimneys, heaters, barbecues and industrial applications

Shades	Packaging
Silver	180mL, 375mL, 750mL

No dilution   12-14 m²/L   2-3 h

Spray't Color

✔ Acrylic paint Gloss	High quality fast drying acrylic spray with gloss finish in white, black and 18 RAL shades
✔ Acrylic paint Mat	Mat finish, available in white and black
✔ Fluorescent paint	With fluorescent finish for special markings in green, magenta and yellow
✔ Acrylic metallic paint	Gold and silver metallic finish
✔ Special effects	Mirror effect metallic gold and silver shades
✔ High Temperature	High temperature spray (black)
✔ Smalto	For white domestic appliances
✔ Wheel	For aluminum and plastic wheel trims
✔ Acrylic Varnish	For wooden surfaces

Spray't Penetrating Oil

✔ Penetrating Oil	For lubrication and cleaning of metal objects

Spray't Primer Anticorrosive

✔ Anticorrosive Primer	Primer for metal surfaces

Spray't Primer Zinc Rich

✔ Zinc Rich Primer	Zinc rich primer - cold galvanizing, the ultimate anticorrosive protection (grey)

8-9 m²/L   3-5'

Packaging
400mL

Paint Remover

Paint and varnish remover

✔ Removes old coatings without affecting the surface

✔ Dichloromethane free

Packaging

375mL, 750mL

2-4 m²/L   15-40'

Brush Solvent T300

✔ Thinner for 1K solvent based paints applied by brush or roller

Packaging

375mL, 750mL , 5L, 15L

Spray Gun Solvent T350

✔ Universal thinner for 1K or 2K solvent based paints applied by spray gun

Packaging

375mL, 750mL , 5L, 15L

Nitro Solvent T400

✔ Thinner for solvent based paints, varnishes and primers applied by spray gun

Packaging

750mL , 5L, 15L

A. WALL & CEILING PAINTING

1. BEFORE YOU START

Do you have sufficient paint?

Step 1. Make sure you have enough paint by calculating the total area of all surfaces you want to paint
(walls: width x height + ceiling: room width x length).

Step 2. Divide the result by the paint coverage.

Step 3. Multiply by the amount of coating layers required, as stated in the product instructions.

smart tip
• For a more accurate calculation of the total surface, subtract the areas of the surfaces that are not to be painted (e.g. windows, doors etc.).

Do you have enough time?

Step 1. Consider the number of coats to be applied and the drying time.

smart tip
• Ideally, the sequence to be followed is: wooden surfaces, ceilings, walls.

Are the conditions right?

Do not apply products at temperatures below 5ºC or above 35ºC, under conditions of high relative humidity or on surfaces that are exposed to direct sunlight.

2. PREPARATION OF THE ROOM AND SURFACE

Protect the room and surfaces

Step 1. Protect the floor with corrugated cardboard and furniture with dust sheets.

Step 2. Apply paper tape to doors, window frames, etc. and to any "cut ins", as needed.

Step 3. Remove door knobs and sockets or cover them with paper tape.

Repair any flaws in the surfaces

Step 1. Wipe the dust and remove loose material.

Step 2. Remove dust from holes and cracks.

Step 3. Apply a suitable putty with a spatula widthwise to the crack in alternating directions.

Step 4. Let dry completely in accordance to packaging instructions and sand.

smart tip
• To remove mold, apply mold cleaner on the stain and wipe off with a dry cloth.

Priming the surface

Apply one coat of suitable primer following the packaging instructions regarding dilution, ambient conditions and drying time.

smart tip
• Selecting the suitable primer is essential for stabilization of the surfaces, coverage of stains when applying an intermediate layer for changes from dark to lighter color shades and for maximizing the hiding power of the top coat (PreColor Primer).

3. APPLYING PAINT

Cutting in

Step 1. Begin by cutting in around the edges of the ceiling, skirting boards, doors, window frames, closets, sockets, etc. using a suitable brush.

smart tip
• Apply the paint in smooth movements, holding the brush close to its bristles and pushing gently.

Painting the surface

Step 1. With a roller, apply paint to an area of approx. 30cm x 30cm in a bottom-to-top stroke, as close as possible to the edges.

Step 2. Gently apply a second coat in the same direction.

smart tip
• When painting ceilings, use a roller with an extension pole and apply the second coat crosswise.

B. PAINTING OF WOODEN SURFACES

1. BEFORE YOU START

Step 1. It is preferable to remove the doors from their hinges and paint them horizontally. If this is not possible, use paper tape to cover edges where needed.

2. PREPARING THE SURFACE

Sand and remove dust

Step 1. Use abrasive paper or a sander and remove any imperfections and roughen the surface; this will improve adhesion of the paint that you will apply.

Step 2. Remove residues and dust.

Repair any flaws in the surfaces

Step 1. Repair any cracks or holes using acrylic putty.
Step 2. Let the surface dry completely and sand it with abrasive paper or a special polishing sponge.

Priming the surfaces

Step 1. Apply one coat of suitable primer following the packaging instructions regarding dilution, ambient conditions and drying time.

smart tip
• Selecting the suitable primer is essential for stabilization of the surfaces, coverage of stains and when applying an intermediate layer for changes from dark to lighter color shades.

3. APPLYING THE PAINT

Cutting in

Step 1. Begin by cutting in around doors and window frames, using a brush.

Painting the surface

Step 1. Apply the paint using a roller (sponge) in top-to-bottom strokes.

Step 2. Apply the second coat according to the instructions on the packaging.

smart tip
• Ensure that the room is sufficiently ventilated.

1. BEFORE YOU START

Do you have sufficient paint? Are the conditions right?

Step 1. For railings, calculate the required amount of paint based on the length.

Step 2. For large metal surfaces (e.g. garage doors), calculate the total surface area.

2. PREPARING THE SURFACE

Sand and remove dust

Step 1. Sand the metal surface with abrasive paper or a polishing sponge until it becomes dull.

Step 2. Remove residues and dust.

Step 3. Wipe the surface with a cloth soaked in brush solvent.

Priming the surface

Step 1. Apply a suitable primer for better adhesion and long-lasting surface protection.

Step 2. When the surface is completely dry, sand and remove dust.

smart tip
• Edges may need more applications in order to achieve proper coverage.

3. APPLYING THE PAINT

Step 1. Apply the first coat paying special attention to the edges and the second coat according to the instructions on the packaging.

smart tip
• Apply an additional coat for extra protection of edges and decorative elements.
